More Parking Lots Are Included In University Building Program

The tremendous building program now under way on the campus calls for more parking lots for automobiles to be constructed as other projects progress.

However, unavoidable delay this summer in the construction of two new lots promises a situation this fall that will need a special degree of cooperation on the part of everyone at the University—students, faculty and other employees.

With such cooperation, there will be a minimum of inconvenience. Most faculty and employees will not be able to park immediately adjacent to their work, it is true; but parking areas will be provided within a reasonable distance.

To aid in this matter, faculty members and other employees are asked not to drive to work unless they live too far away to walk. Whenever possible, they should "pool" rides.

Students are asked to bring cars to Bowling Green only if they consider it absolutely necessary.

Parking Problems Incident To Building Program

Parking problems on the campus have increased for four reasons:

1. The number of cars being brought to Bowling Green by students, faculty and other employees has been increasing because of increased enrollment.
2. New construction has made unusable a number of parking spaces previously in use.
3. The many workmen on buildings now under construction come to work in automobiles.
4. The University has been unable this summer to construct two new parking lots, one for students and one for faculty and other employees, as had been planned.

The reason for this delay arose in an action of the State Director of Public Works, who must by law award all contracts for such work on state university campuses. After the University had received bids for construction of the two lots, the State Director decided that specifications should be changed. This necessitated advertising for new bids, causing a delay that may make the work impossible this summer. Since asphalt work cannot be done in cold weather, the lots probably cannot be built before next year.

One of these new lots planned was to go in the area behind the University Elementary School. It would have accommodated 120 faculty and employee automobiles. The other was to be an extension of the parking lot west of the Fine Arts Building northward toward Ridge Street. This would have provided space for parking 500 more student automobiles.

Plans Made For Additional Parking Spaces

Not only have plans been made for the most efficient use possible of all available parking space, but two additional areas are also being prepared as temporary student lots. One of these will be located east of the Fine Arts Building; the other will be located north of the Chemistry Building.

Besides this, additional parking spaces are being set aside for faculty and other employee parking on the campus. The Natatorium lot, formerly for student parking, will be assigned to faculty and employee vehicles.

Plans further provide for clear marking of all parking areas. Those for student parking will be plainly marked, as will areas for faculty and other employee parking. Regulations regarding parking will be strictly enforced. Students will be prohibited from parking in faculty-employee parking areas; and faculty and employees will be prohibited from parking in student parking areas. Every member of the University, whether student, employee, or faculty member, will be subject to fines for improper parking.

William J. Rohrs, director of safety, will have additional personnel assigned to parking during the first two weeks of the school year in order to help acquaint everyone with parking areas and regulations. He is also preparing a campus map which will show student parking areas and faculty-employee parking areas in different colors. Copies of this map will be available to everyone at the University at the opening of school.

All Automobiles Must Be Registered

Everyone connected with the University who drives an automobile to the campus will be required to register his automobile. If the automobile has been registered in the past, it will need to be re-registered.

Faculty members and administrative officers will be able to register their automobiles through campus mail. Forms will be provided for this purpose at the opening of the school year. Other employees may register their cars at the Department of Safety office in the Maintenance Building. Everyone will be given a decal to be placed on the windshield as evidence of registration.

Every student attending the University who brings an automobile to Bowling Green or who operates an automobile for transportation to and from the campus must register the automobile with the Department of Safety of the University within 24 hours after his arrival. The automobile registration fee is \$5 for a student registered for 10 semester hours or more. One payment of the registration fee covers the entire academic year.

In order to register his automobile, the student must present:

1. Evidence of paid-up insurance, including liability, property damage, and medical payment.
2. A valid driver's license.
3. A written statement from his parent or guardian approving his having an automobile, if the student is under 21 years of age.

Classes To Meet On Half Hour

Classes will meet on the half hour beginning with the fall semester rather than on the hour as in the past. The first class will begin at 8:30 a.m.

Elected To National Office

David O. Matthews, assistant professor of health and physical education, has been elected national president of Sigma Delta Psi, athletic honorary fraternity.

173 Are Candidates For Degrees At Summer Commencement Friday

DR. PAUL WEAVER
Commencement Speaker

Candidates for degrees at commencement on Friday total 173, according to the Registrar.

The commencement will be held in the Main Auditorium, beginning at 3 p.m. The ceremony will mark the close of summer school.

Speaker for the occasion will be Dr. Paul Weaver, president of Lake Erie College, Painesville, O. His topic will be "Human Relations Across National Frontiers."

Degrees will be conferred by President McDonald. The invocation and benediction will be given by the Rev. Richard Brown, assistant vicar of St. John's Episcopal Church, Bowling Green.

Mrs. Carol Payne Smith will play the processional and recessional on the organ. Special music will be sung by Warren S. Allen, associate professor of music.

With those graduating on Friday, a total of 735 persons will have received degrees at Bowling Green State University this year, including 128 at the commencement in February and 435 in June.

To Graduate Cum Laude

Four will be graduated with honors, all cum laude. They are Bernard L. Bundy, son of Mrs. Ruby Bundy, 322 W. Water St., North Baltimore; Jack R. Siegel, son of Mr. and Mrs. Harold L. Siegel, 402 W. Water St., North Baltimore; Mrs. Marilyn J. Sutherland Hehl, Route 3, Kenton; and Miss Doris E. Shoup, daughter of Mr. and Mrs. Durward B. Shoup, Route 2, Richwood.

ROTC Graduates

Six of the graduating men, who have completed the ROTC courses at the University, will be commissioned second lieutenants.

Robert Joseph Patty, son of Mr. and Mrs. George R. Patty, 109 N. Miami, Bradford, will be commissioned a second lieutenant in the Air Force Reserve.

Five men will be commissioned second lieutenants in the U. S. Army Artillery Reserve. They are James A. Cox, son of Mr. and Mrs. Gordon O. Cox, 127 Miller Ave., Fairborn; Richard E. Jewett, son of Mr. and Mrs. Ford M. Jewett, Route 3, Wellington; Robert D. LaTour, son of Mr. and Mrs. Albert O. LaTour, 310 N. Main, Swanton; Michael P. Scholler, son of Theodore L. Scholler, 624 S. Walnut, Troy; and Joseph A. Stanziale, son of Mrs. A. Stanziale, 379 Sanford, Painesville.

Seminars Abroad

Dr. Weaver, who has been president of Lake Erie College since 1951, is widely known as a speaker and has lectured in approximately 200 colleges and universities in this country in addition to addresses before important state and national conventions of leaders in business and education.

His interest in international understanding, which is based in part on his experiences as dean of seminars in such countries as Denmark, Germany, and India, has been largely responsible for the development of Lake Erie's unique plan of sending its entire junior class to Europe for the Winter Term Abroad for Juniors.

This pioneer experiment in increasing understanding across national frontiers is now a regular part of a student's four-year program. There the students work on creative or research projects under Lake Erie College supervision while living with the native families for a period of 10 weeks.

Dr. Weaver was recently elected to the Commission on International Cultural Relations of the Association of American Colleges and has accepted an appointment to the Advisory Council on Teacher Education and Certification for the State of Ohio.

He also represents the American Council on Education as a member of the committee that handles Fulbright scholars in the fields of international research and lecturing.

BGSU Among First Selected To Give Flight Training In Air Force ROTC

Bowling Green State University has been selected as one of 38 colleges and universities across the country to begin flight training for Air Force ROTC cadets this fall. Dr. Ralph G. Harshman, vice-president of the University, has announced.

Flight training for selected advanced Air Force ROTC students is authorized by House Bill No. 5738 (Public Law 879), which was signed by President Eisenhower on August 1.

The law provides for a minimum of 40 hours of ground school and flight instruction to qualify students for private pilots license.

This instruction will be given at the University airport at no cost to the students. The cost of such training, if paid for privately, would be about \$500.

Training will be available, beginning this fall, for senior Air Force ROTC cadets who can qualify. It will be in addition to their regular ROTC courses.

Bowling Green State University has units of both Air Force and Army ROTC on its campus. The units are open to qualified freshman men who wish to earn a commission as an officer in the Air Force or Army while studying for a college degree.

Women Will Find Founders Quadrangle Delightful, Comfortable Campus Home

In Founders Quadrangle women students will have really delightful living accommodations. Colorful interiors and furnishings and the comfort and convenience the Quadrangle will provide its occupants are certain to attract attention—but one of the major features of this residence center lies in its arrangement for students to live in relatively small social groups.

Although the Quadrangle will provide living accommodations for a total of 849 women students, it will consist of four separate yet connected residence halls. Each residence hall will have its own head resident.

The Quadrangle is further divided in that each floor of each residence hall comprises what might be called a suite. There will be a total of 19 such suites in the Quadrangle, each with its own distinctive decorative motif, its own lounge, and centrally located bath facilities.

Freshmen women will be housed in Founders, with upperclass women in areas not filled with freshmen.

Treadway Hall is expected to be ready for occupancy in September, and workmen are rushing to get

the others ready as soon as possible this fall.

Until the other three halls of the Quadrangle are ready for use, freshmen women will be housed in Kohl and Williams Halls. As soon as the new residence halls are ready, women will be moved into them. When Kohl and Williams Halls are vacated, men students will be moved into them from Rodgers Quadrangle, to relieve overcrowding there.

Enrollment Totals 2,163 This Summer

Total enrollment at Bowling Green State University this summer is 2,163, an increase of eight per cent over that of last summer, President Ralph W. McDonald has announced.

Class enrollment in the first session was 1,072 as compared with 954 last year. In the second session enrollment is 739, as compared with 644 last year. Besides these, 352 have enrolled in summer workshops.

Largest increase this summer has been at the graduate level, with enrollment over 30 per cent above that of last summer.

Under New Contract Dr. McDonald Will Serve As President Of BGSU Until He Reaches Retirement Age

Dr. Ralph W. McDonald will serve as president of Bowling Green State University until he reaches retirement age, according to the terms of a new contract recently given him by the Board of Trustees.

When Dr. McDonald was first appointed to this position in 1951, he was given a five-year contract. The new contract will replace that contract which expires on August 31.

The contract provides that upon retirement, Dr. McDonald will become president emeritus of the University at one half of his highest annual salary. His salary is set each year by the Board of Trustees.

Experienced In Educational Administration

Dr. McDonald was 53 in March. He came to Bowling Green five years ago eminently qualified for the presidency of the University, with a background of education and experience in teaching and school administration, both in the public schools and in higher education. He had completed seven years as executive secretary of the Department of Higher Education of the National Education Association in Washington, D.C., and during five of those years had also been executive secretary of the National Commission on Teacher Education and Professional Standards.

DR. McDONALD

A Phi Beta Kappa graduate of Hendrix College in Arkansas, he began his professional career as a teacher of mathematics at Fort Smith High School in Arkansas. The next year he became principal of Sunnyside Consolidated Schools in Cumberland County, North Carolina. He then entered Duke University and earned his master's degree in 1927, and in 1933 the Ph.D. degree.

He was for five years chairman of the department of psychology and education at Salem College, Winston-Salem, North Carolina; he taught for two years plus several summer sessions at Duke University; and he was graduate professor of education and associate director of extension at the University of North Carolina for four years.

In the mid-30's Dr. McDonald served a term in the North Carolina House of Representatives. For several years he was president of the National Committee on Atomic Information and director of the North Carolina March of Dimes. He is nationally known as an educator, public speaker, and writer on educational subjects.

University Has Made Significant Progress

Under President McDonald's direction during the past five years, Bowling Green State University has made significant progress. His constant emphasis upon excellence and quality in every aspect of the University program has shown gratifying results.

The faculty has been constantly strengthened, so that it now ranks in the top one-fourth among accredited institutions of higher education in the nation in training. The proportion of full-time faculty members with doctorate degrees has increased from 26 per cent in 1950-51 to almost 50 per cent at present.

Faculty salaries have been increased an average of 70 per cent in the past five years. With this improved salary schedule and the University's growing reputation for excellence, Bowling Green State University is now able to attract the most highly qualified men and women available anywhere as new appointments to the faculty.

Curriculum revision and improvement has been given major attention. Two new degree programs, in journalism and in fine arts, have been instituted. Branch programs offering the first year of college work and the two years of studies for the "cadet" teacher certificate have been instituted at Sandusky and Mansfield. This fall the University will offer extension courses in 21 communities in northwest Ohio.

Complete National Accreditation Achieved

Complete national accreditation was achieved two years ago with admission of the College of Business Administration to membership in the National Association of Collegiate Schools of Business. With this recognition, Bowling Green State University became the sixth institution of higher education in Ohio with full accreditation for the colleges of liberal arts, business administration, education, the graduate school, and the departments of music and chemistry.

On-campus enrollment which totalled 3,442 in the fall of 1951 reached 3,910 last fall and is almost certain to run well over 4,000 this fall. Summer school enrollment has almost doubled in the past five years, increasing from 1,056 in 1951 to 2,004 this summer.

Pressure for admission to the University is shown in the steady growth of the freshman class, which numbered 891 in 1951, 957 in 1952, 1,170 in 1954, and 1,453 in 1955. The quality of entering freshmen is on the upgrade. Six years ago 59 per cent of the freshman class ranked in the upper one half of their high school graduating classes. Three years later this figure had risen to 68 per cent. In 1954 the figure was 71 per cent, and it is continuing to rise.

Not only is the quality of entering students rising steadily, but fewer of them are dropping out before completing their studies. Insofar as records are available, the rate of retention in all classes is now the highest it has ever been in the history of the University.

Multi-Million Dollar Expansion Program

Most obvious progress on the campus is, of course, the multi-million dollar plant expansion and improvement program now under way. Two residence centers completed last year as a cost of \$2,350,000 are Rodgers Quadrangle, which has a normal occupancy for about 700 men students, and Alice Prout Residence Hall, with a normal occupancy for 270 women.

Under construction at the present time are Founders Quadrangle, a series of four connected yet separate residence halls which will accommodate 839 women students; a University Union, which will be the second largest in Ohio and one of the finest in the country; and a Hall of Music, skillfully designed for all phases of music instruction.

Three more residence hall projects are in the planning stage, with construction scheduled to begin in the near future. One of these is to be a residence center for women; another a residence center for men; and a third, a new wing to Kohl Hall, men's residence.

All cost of constructing and equipping of residence halls and dining facilities and the University Union is being paid from the proceeds of the sale of bonds and does not involve the use of tax funds.

Appropriation For Instructional Buildings

The General Assembly last January appropriated \$912,000 for the construction of a new home economics building and a classroom building, and in addition provided funds for such campus improvements as walks and drives and a new boiler for the heating plant.

The General Assembly also appropriated \$80,850 for architectural

Radio station WBGU at Bowling Green State University was the recipient this month of the 1955 National Safety Council Public Interest Award for exceptional service to safety. Photo above shows H. G. J. (Jim) Hays, executive secretary of the Ohio State Safety Council, Cleveland, at left, presenting the plaque to Vice President Ralph G. Harshman. Right is Sidney C. Stone, director of WBGU.

Only 10 such awards were made in Ohio, with BGSU the only institution of higher education in the state to receive one. Presentation of the plaque was made on August 3 Women's Club in Bowling Green, at a luncheon which concluded the two-week driver education course on the campus this summer.

Miss Gould, Dr. Mandell Married; Go Abroad

Miss Natalie Gould, administrative assistant to the President, and Dr. Maurice I. Mandell, associate professor of business administration, were married on July 29, in Prout Chapel, on the campus.

After the wedding, the couple left for Turku, Finland, where Dr. Mandell will lecture in advertising at the Swedish School of Economics during the coming school year. He has been awarded a Fulbright grant to teach abroad.

They expect to return to the University next summer, following a world tour.

President Keynote Speaker

President Ralph W. McDonald gave the keynote address at the opening session of the Parkland Conference, Pacific Lutheran College, Parkland, Washington, June 26-30. The Conference was sponsored by the National Commission on Teacher Education and Professional Standards of the National Education Association.

fees for planning (1) a building for composite use in health and physical education, military and air science, and assembly activities; (2) remodeling and equipping the present Practical Arts building for instructional use by the College of Business Administration; and (3) constructing another unit of the present Chemistry Building for instruction in the sciences and mathematics.

In the long-range master plan for campus expansion, three other buildings have been determined, in order of priority. They include an addition to the Library, a new Industrial Arts building, and a new Administration Building, with the present one to be used for instruction in liberal arts subjects.

Miss Elsass Married To Clark Trumbore

Miss Elinor Margie Elsass, head resident of Shatzel Hall, and Herbert Clark Trumbore, University food service officer, were married in Prout Chapel on June 23.

The bride is a graduate of the University. The couple will reside in the head resident's apartment in Shatzel Hall.

Elton C. Ringer, assistant business manager, received a special Carnegie Corporation fellowship grant to attend the annual workshop in college business management at the University of Omaha in July.

Robert E. McKay, student financial aid counselor, was awarded the Silver Beaver in June, highest Boy Scout award given to district volunteer adult Scout workers.

Among the visiting professors teaching on the campus this summer is Dr. James L. Henderson of the University of London, England, history department.

Extension Classes Will Be Offered In 21 Communities

Extension classes will be offered by Bowling Green State University this fall in 21 communities in Northwest Ohio. Dr. Ralph H. Geer, assistant dean of the College of Education, has announced.

Centers where courses will be offered, titles of the courses, and beginning dates are as follows:

- Ashland—Educ. E421, Pupil Personnel and Guidance, 3 hrs. cr.—Begins Sept. 23.
- Bryan—Educ. E423-490, Investigations in the Teaching of Arithmetic (2) and Problems (1), 3 hrs. cr.—Begins Sept. 23.
- Bucyrus—Hist. E206, History of the United States, 1805-Present, 3 hrs. cr.—Begins Sept. 24.
- Fostoria—Socio. E303, Cultural Anthropology, 3 hrs. cr.—Begins Sept. 24.
- Fremont—Speech E223, Speech Problems, 3 hrs. cr.—Begins Sept. 24.
- Gallons—Art E343, Arts and Crafts, 3 hrs. cr.—Begins Sept. 25.
- Kenton—Educ. E404, Audio-Visual Aids to Instruction in Education, 3 hrs. cr.—Begins Sept. 24.
- Lima—Educ. E441-490, The Education of the Exceptional Child, 3 hrs. cr.—Begins Sept. 25.
- Mansfield—Educ. E423-490, Investigations in the Teaching of Arithmetic (2) and Problems (1), total 3 hrs. cr.—Begins Sept. 26.
- Marion—Educ. E423-490, Investigations in the Teaching of Arithmetic (2) and Problems (1), total 3 hrs. cr.—Begins Sept. 24.
- Monroeville—Educ. E404, Audio-Visual Aids to Instruction in Education, 3 hrs. cr.—Begins Sept. 24.
- Napoleon—English E201, Introduction to Literature, 3 hrs. cr.—Begins Sept. 25.
- Port Clinton—Socio. E302, Marriage Relationships, 3 hrs. cr.—Begins Sept. 24.
- Paulding—Art E343, Arts and Crafts, 3 hrs. cr.—Begins Sept. 26.
- Sandusky—Educ. E422-490, Investigations in the Teaching of Reading (2) and Problems (1), total 3 hrs. cr.—Begins Sept. 26.
- Sylvania—English E243, Representative American Writers, 3 hrs. cr.—Begins Sept. 24.
- St. Marys—Educ. E343-490, The Teacher's Relation to Administration (2) and Problems (1), total 3 hrs. cr.—Begins Sept. 24.
- Upper Sandusky—Organization meeting on Sept. 25, to determine the demand for an extension class.
- Walbridge—Educ. E404, Audio-Visual Aids to Instruction in Education, 3 hrs. cr.—Begins Sept. 25.
- Wauseon—Geog. E330, World Geography, 3 hrs. cr.—Begins Sept. 24.
- Willard—Music E107, Elementary Conducting and Terminology, and Music Ed. I, Music Appreciation, 3 hrs. cr. for both courses—Begins Sept. 23.

Freshly frozen Masterpiece!

STRAWBERRY sundae

Smooth Dairy Queen topped with great big juicy strawberries! What a treat! Everybody goes for this saucy-sweet "redhead!"

434 East Wooster Street
One Block West of the Campus
Open 11 a.m. to 11 p.m.

New Faculty Appointments Have Outstanding Qualifications

The outstanding qualifications of the replacements and additions announced for the faculty this fall attest to the fact that Bowling Green State University continues to attract the highest quality and best trained men and women available to its teaching and administrative staff. A dozen of the new appointments have doctorate degrees, and all are exceptionally well qualified by education and experience.

Most appointments have been made to fill vacancies caused by leaves of absence and retirement. Eight faculty members will be on leave this year—six to do further graduate study and two to teach abroad on fellowships—and two have retired. One-year appointments for three others have expired. Holding power of the University is shown in the fact that only seven have resigned—less than 3 per cent of the faculty—which is exceptionally low when compared with national averages.

Changes and appointments by departments, as announced by President McDonald to date, are as follows:

Art

Dr. Paul D. Running, specialist in art history and chairman of the department of art at East Carolina State College, Greenville, has been appointed assistant professor of art to fill the position left vacant by the resignation of Dr. John T. Carey who has accepted a position as chairman of the department of art at Northern Illinois State College in DeKalb. Dr. Running has taught art at St. Ilia College, Northfield, Minn.; the State University of Iowa; Northern Michigan College of Education; and the Valley City Teachers College in North Dakota.

Biology

Two new instructors in the biology department are Dr. Lawrence Bliss and Dr. Ernest S. Hamilton.

Dr. Bliss was a member of a biology field expedition to northern Alaska in 1953. He also did field work in ecology in Wyoming during the summers of 1954 and 1955. He fills the vacancy created by the retirement of Dr. Charles H. Otis, professor emeritus of biology.

Dr. Hamilton will assume the teaching duties of Harold T. Hamre during Mr. Hamre's leave of absence to study at Ohio State University. Dr. Hamilton taught general biology two years at Rutgers University and was a laboratory assistant at the University of Massachusetts for one semester. This summer he has been consultant for the Museum of Natural History in New York City.

Business Administration

Dr. Louis Acuff has been named assistant professor of business administration to replace John Darr, assistant professor of business administration, who is on leave to study at the University of Alabama. Dale E. Futhey has been appointed instructor in business administration to replace Dr. Maurice I. Mandell, associate professor of business administration, who will teach at the Swedish School of Economics at Turku, Finland, on a Fulbright grant.

Dr. Acuff, presently an assistant professor of industrial management at Mississippi State College, has been a member of that institution's faculty since 1953. He was formerly employed in agriculture and the furniture industry.

Mr. Futhey, a graduate assistant at Ohio State University, served as an officer in the European and Asiatic-Pacific theaters during World War II, and in Korea and Japan from 1952 to 1954. He has been employed as a field representative for Swift and Co., and as a salesman for the City Ice and Fuel Co., Cleveland. Howard B. Huffman, assistant

professor of business administration, will return this fall after two years of study for the doctorate degree at Ohio State University.

Business Education

Charles Bernard Smith will assume the teaching duties of Miss Mary Hiltner, whose one-year appointment as instructor in business education has expired. Mr. Smith has taught business education at Lansing High School in Iowa, where he also taught adult evening classes. Prior to 1953, he was employed by the Central States Electric Co.

Education

Dr. George Slinger, director of the guidance clinic for schools in Mt. Berry, Georgia, has been appointed assistant professor of education and will serve as a new member of the University reading clinic staff. He was formerly vocational psychologist with the Veterans Administration in Detroit, and has taught in high school in Chicago, Miamisburg and Dayton.

Walter Hobbs, who taught in the Marion-Franklin High School in Columbus last year, has been appointed assistant professor of education to fill the vacancy created by the resignation of Dr. Warren J. Pelton who accepted a research position with the Rand Corporation in California. Mr. Hobbs is a graduate of Ohio State University and expects to receive the doctor's degree from Teachers College, Columbia University, in December.

English

Dr. Morris Golden, Phi Beta Kappa graduate of the City College of New York, and Robert L. Chamberlain, who has spent two years recently doing research in England, have been appointed instructors in English.

Dr. Golden has been an instructor in English at Heights College, New York University and Mr. Chamberlain has been a member of the English faculty at Syracuse University. He expects to receive the Ph.D. degree from that university this fall.

Two intern instructors have been appointed to replace staff members on leave this year. One is William Scott, who has assisted in writing the script for the radio program, "Boston Blackie," and has served as a writer for several comic strips produced in Toledo. The other is Ralph Wolfe, who graduated from BGSU in 1951 and expects to receive the master's degree here this month. He served two years in the Army and taught English at Wayne, Ohio, in 1953 and 1954.

They will take the places of Miss Beryl Parrish, who will study at the University of Minnesota, and Dr. Louis C. Rus, who will do research and teach in Germany this year.

Miss Dorothy Moulton, assistant professor of English, will return after a year's leave of absence to study for the doctor's degree at the University of Michigan.

Geography

Dr. Ralph W. Frank has been named assistant professor of geography to fill the vacancy created by the resignation of Dale Courtney, who has accepted a teaching post at Portland State College in Oregon.

Dr. Frank has been an associate professor of geography at Western Illinois State College, instructor in geography at Kent State University and the University of Cincinnati, and map curator at Northwestern University. He taught geography and history for four years at Washington High School, Massillon, his home town.

Industrial Arts

Dr. Stewart Berry will serve as assistant professor of industrial arts in the absence of Robert T. Austin, instructor in industrial

arts. Mr. Austin has been granted a two-year leave of absence to serve as an advisor at the Bangkok Technical Institute in Thailand.

Dr. Berry was visiting professor of education at Ohio Wesleyan University last year. Prior to that he was field director for the Economic Education program and assistant professor of school administration at Ohio University. He has also taught at Miami University, University of Alabama, Kettering, Ohio, Hinds County, Miss., and Birmingham, Ala.

Journalism

Robert A. Steffes will be on leave this year to do further graduate study at the State University of Iowa. Donald Peterson will assume his duties as advisor to The B-G News while he is away.

Mathematics

Filling the vacancy created by the retirement of Dr. J. Robert Overman, dean emeritus and professor of mathematics, will be Dr. Bernard H. Gundlach, who has been associate professor of mathematics at the University of Arkansas. He was head of the mathematics and science department at the Ruston Academy in Havana, Cuba, from 1938 until 1949, at which time he joined the faculty at the University of Arkansas.

Another new member of the mathematics department will be William G. Spohn, who has served as an instructor at the University of Delaware, Temple University and the University of Pennsylvania. During recent summers, he has been employed in applied mathematics at the Aberdeen, Md., Proving Grounds.

Physical Education

Jim Knierim, head basketball coach at Woodward High School in Toledo for the past six years, is joining the health and physical education faculty where he will teach, coach freshman basketball and assist in baseball. Mr. Knierim was an outstanding athlete while a student at BGSU from 1944 to 1948.

Dale Herbert, who has been coaching freshman basketball, will become assistant coach of varsity basketball. Here he takes the place of George Muellich who has resigned.

Psychology

Dr. Brian Sutton-Smith and Elmer Morgan will join the staff of the psychology department. Mr. Morgan will replace Richard L. Crager, who served a one-year appointment as an intern instructor.

Dr. Sutton-Smith will be a visiting lecturer in psychology. He has been a member of the faculty of Victoria University College, Well-

ington, New Zealand, since June, 1955. During a previous two-year stay in this country, he served on the staffs at Wayne University, University of Chicago and the University of California at Berkeley.

Mr. Morgan served three years on the staffs of institutions for emotionally-disturbed children in St. Paul, Minn., and Cleveland. He was in the Merchant Marine from 1943 to 1948.

ROTC

Major Tom B. Foulk, a 1943 graduate of the U. S. Military Academy, has been assigned to the Air Force unit. A veteran of action in the Pacific with the 15th Fighter Group during World War II, Major Foulk will hold the rank of assistant professor of air science. He will replace Captain Kent Maynard who has been reassigned to France.

Chief Warrant Officer George R. Ralph, Jr., has been assigned to the Army ROTC unit as adjutant to replace CWO Leslie F. Adams who has been re-assigned to Orleans, France. Mr. Ralph has been stationed in Europe, Korea, Japan and several posts in the U. S. Both Major Foulk and Mr. Ralph served at Misawa Air Base in Japan before coming to the University.

Mansfield Branch

A man and wife team, both with doctorate degrees, will serve on the Mansfield staff. They are Dr. Lorraine Ort and Dr. Virgil Ort, both with the rank of assistant professor of education.

Mr. Ort was general superintendent of schools in Pago Pago, American Samoa, from 1951 to 1953. During the same period, Mrs. Ort was director of the Feleti Memorial Teacher-Training School at Pago Pago. The couple formerly taught at Napoleon public schools, where Mr. Ort was principal from 1938 to 1942.

Sandusky Branch

A new full-time staff member on the Sandusky staff will be Mrs. Alphoretta Fish, who has been appointed an instructor in education to supervise student teaching.

She replaces Miss Catherine Bowersox, who has assumed the position of supervisor of junior high schools in Erie County.

Mrs. Fish formerly taught the second grade at Bloomfield Consolidated School, Crawford County, Pa. During the past school year Mrs. Fish has been a Kappa Delta Pi fellowship assistant at Western Michigan College, Kalamazoo.

Administration

Philip P. Byers, who has been director of admissions at Baldwin-Wallace College since 1951, has been appointed admissions officer for the University.

D. Glenn Christian, graduate of the University of Michigan in industrial management, has been appointed engineer for the University Union.

Ray Whittaker, who was formerly with the University, has returned after a year's absence to fill the newly created position of director of residence services. During the past year he taught school in California.

A chapter of Phi Delta Kappa, national professional fraternity for men in education, was installed on the campus on July 28. Forty-five men who are graduate students in education or alumni of the University were initiated. Among the five faculty members initiated at the same time was President Ralph W. McDonald.

Dr. Frank F. Miles, assistant professor of sociology, is co-author of a new book titled "Field Manual in Introductory Sociology."

Football Practice To Begin Sept. 1; Outlook Very Good

Barring injuries, we will have at least as good a team and perhaps a better one than we had last season, Coach Doyt Perry said last week in commenting on prospects for the coming football season.

Last season the Falcon gridders won seven games, lost only one, and tied one, to place second in the Mid-American Conference rating.

Football practice will begin on September 1 with 50 candidates out for the team, Coach Perry said. "Prospects looked good at spring practice," he continued. "The biggest problem, it appears now, will be replacing Jack Hecker and Tom Kiselie at ends." These men were graduated in June.

Other graduates from last year's squad include Jim Bryan, qb; Joe Stanziale, g; Fred Koch, t; Sam Epstein, hb; Ben Rowe, fb; and Chris Ford, c.

Not only do candidates for the varsity squad look promising, but we have a fine freshman group coming in this fall, Coach Perry said. Jim Ruehl will coach freshmen this fall. He is a graduate of Ohio State University, and as a graduate assistant here last year, assisted Forrest Creason with the freshman football team. This year Mr. Creason will have charge of ticket sales and coach golf.

The football season will open on September 15 with the Falcons playing Defiance College in the BGSU stadium. This will be a night game. The team will see action each Saturday thereafter for eight more weeks.

With one of the most attractive schedules of home games in several years, a good attendance is expected, Mr. Creason said. Season tickets will be available this fall, for the first time. Requests for information about reserved seats or season tickets may be addressed to the Athletic Office of Bowling Green State University.

FOOTBALL SCHEDULE

All Games on Saturdays

Five Home Games

Sept. 15—Defiance College here, 8 p.m. High School Night
Sept. 22—Kent State University here, 8 p.m.
Oct. 27—Marshall College here, 2 p.m. Homecoming

Four Games Away

Sept. 29—At Western Michigan College, Kalamazoo
Oct. 6—At Drake University, Des Moines, Iowa (Night game)
Oct. 13—At Baldwin-Wallace College, Berea, O. (Night game)
Oct. 20—At the University of Toledo

Anderson Conducting Clinics In Far East

Harold Anderson, head basketball coach at BGSU, and the president of the National Basketball Association were selected by the U. S. Army as a two-man team to conduct basketball clinics for service personnel in Hawaii and Japan in August and September. Mr. Anderson left Bowling Green on August 11 and expects to return from the Far East in time for the opening of classes on September 24.

This will mark his second international trip to display his coaching ability. In 1950 in response to an invitation from the basketball confederation of Brazil, Coach Anderson took his squad of Falcons on a 14-game good-will tour of that South American country.

Colonel Harry M. Myers, PMST at Bowling Green State University, and Dr. Elden T. Smith, Director of Student Life and Services, are pictured above (in center of photo) having lunch in the field with a group of BGSU Army ROTC cadets at Fort Bragg, North Carolina.

Some of the others in the photo, from left are Gerald Jacobs, Perrysburg; Clayton Cornell and Carter Hadley, Bowling Green; Donald L. Phinney, Kenmore, N.Y.; Fred Ashley, Geneva; James Janeway, Monroe, Mich.; and James Conley, Bowling Green.

Doing Research For Grange

Dr. Raymond W. Derr, associate professor of journalism, was granted a fellowship by the Foundation for Economic Education, Inc., to do research for the Grange

League Federation in Ithaca, N.Y., this summer.

Receives Research Grant

Dr. Averill J. Hammer, professor of chemistry, was awarded a

grant of \$2,000 this summer for research in the anion absorption of clay materials. This is the third grant he has received from the Research Corporation. The first two totalled \$3,400.

Altogether 74 ROTC cadets from BGSU received training in camps this summer. Five from the Army ROTC went to Ft. Sill, Okla., and 46 to Ft. Bragg. Among the 23 Air Force ROTC cadets who received summer training, 17 were assigned to Lockbourne Air Force Base, Columbus, O.; three to Selfridge Air Force Base, Mt. Clemens, Mich.; two to Griffis Air Force Base, Rome, N.Y.; and one to Tyndall Air Force Base, Panama City, Fla. A period of summer training between the junior and senior years is required of all students taking ROTC.

Announcements For Graduating Seniors

A rehearsal for all candidates for degrees at the Summer Commencement will be held on Wednesday, August 22, at 3 p.m., in the Main Auditorium.

Lyle Gainsley, assistant registrar, requests that graduates take seats at the rehearsal that have been assigned on the seating chart posted outside the office of the Registrar.

Faculty and students who have not yet placed orders for caps and gowns with the Bookstore for Commencement on August 24 should do so immediately, according to Paul Shepherd, Bookstore Manager.

Diploma fee of \$5, payable at the Business Office, must be paid by 5 p.m., Wednesday, August 22. Robert G. Roper, assistant to the business manager, has announced.

All persons who have applied for an Ohio Teaching Certificate are requested to report to the Office of the Registrar as soon as possible. Please be prepared to pay the statutory fee of \$1 per certificate.

Record Attendance

The Huron Playhouse, conducted by Bowling Green State University as a summer educational theatre at Huron, Ohio, concluded its eighth season Saturday night—the most successful season from the standpoint of attendance in its history.

Nothing takes to the road like a Chevy!

Once in a blue moon a car like this comes along—a design so advanced in performance, so beautifully balanced that it stands out above every other car on the highway.

It has a solid, sure-footed way of going that makes driving safer and more pleasant on any road. And you feel a very special sense of security in its rapid-fire respon-

siveness to your touch on the wheel, brakes and accelerator.

You can see that the '56 Chevy is a standout for style. But until you have driven one you're missing the best part of the news—the fact that Chevrolet is the smoothest, solidest, most wedded-to-the-road automobile you ever bossed. Try it and see.

You get more car when you buy it . . . more dollars when you sell it! Chevy has the highest resale value of the leading low-priced models!

The "Two-Ten" Sport Coupe with Body by Fisher—one of 20 Chevrolet beauties.
